NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018

1 CORPORATE INFORMATION

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD ("the Bank") commenced commercial banking business on 11 July 2012. The principal activities of the Bank are banking and related financial services.

The address of the registered office and principal place of operation of the Bank is at 15, Jalan Raja Chulan, Bangunan Yee Seng, 50200 Kuala Lumpur.

The Bank is a company limited by shares and is a licensed Bank, incorporated and domiciled in Malaysia.

2 BASIS OF PREPARATION

The unaudited condensed interim financial statements of the Bank have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS"), BNM guidelines and the requirements of the Companies Act, 2016 in Malaysia.

The unaudited condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the audited financial statements of the Bank as at and for the financial year ended 31 December 2017. The explanatory notes attached to the interim financial statements provide an explanation of the events and transactions that are significant to an understanding of the financial position and performance of the Bank for the third financial quarter ended 30 September 2018.

The unaudited interim condensed financial statements for third financial quarter ended 30 September 2018 have been prepared under the historical cost convention unless otherwise indicated in the summary of the significant accounting policies.

The following are accounting standards and amendments of the MFRS framework that have been issued by MASB but are not yet effective:

 MFRS 16 'Leases' (effective from 1 January 2019) supersedes MFRS 117 'Leases' and the related interpretations-

Company No.		
911666	D	

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018 (CONTINUED)

2 BASIS OF PREPARATION (CONTINUED)

The adoption of the above new accounting standards will not have any significant impact on the financial results of the Bank.

3 SIGNIFICANT ACCOUNTING POLICIES AND CHANGES

The accounting policies applied by the Bank in these condensed interim financial statements are the same as those applied by the Bank in its audited financial statements for the year ended 31 December 2017 except for the adoption of MFRS 9 'Financial Instruments which replaced MFRS 139 "Financial Instruments: Recognition and Measurement" effective from 1st January 2018.

(i) Current Period Change in Accounting Policies

The Bank adopted MFRS 9 effective 1 January 2018 which resulted in changes in accounting policies and adjustments to the amounts previously recognised in the financial statements. As permitted by the transitional provisions of MFRS 9, the Bank elected not to restate comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the opening retained earnings and other reserves of the current period. The adoption of MFRS 9 in the first quarter in 2018 resulted in changes in accounting policy in two principal areas, classification and measurement and impairment.

(ii) Classification and measurement of financial instruments

From 1 January 2018, the Bank has applied MFRS 9 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

Classification and subsequent measurement of debt instruments depend on:

- (i) the Bank 's business model for managing the asset; and
- (ii) the cash flow characteristics of the asset.

Based on these factors, the Bank classifies its debt instruments into one of the following three measurement categories:

 <u>Amortised cost</u>: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at FVPL, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised. Interest income from these financial assets is included in 'Interest and similar income' using the effective interest rate method.

Company No.		
911666	D	

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES AND CHANGES (CONTINUED)

- Fair value through other comprehensive income (FVOCI): Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVPL, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in 'Net Investment income'. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.
- Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented in the profit or loss statement within 'Net trading income' in the period in which it arises, unless it arises from debt instruments that were designated at fair value or which are not held for trading, in which case they are presented separately in 'Net investment income'. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

<u>Business model</u>: the business model reflects how the Bank manages the assets in order to generate cash flows. That is, whether the Bank's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVPL.

<u>SPPI</u>: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Bank considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES AND CHANGES (CONTINUED)

Impairment – Allowance for Expected Credit Losses (ECL)

Under MFRS 9, ECL allowances are recognized on all financial assets that are debt instruments classified either as amortized cost or FVOCI and for all loan commitments and financial guarantees that are not measured at FVTPL. The application of an ECL model represents a significant change from the incurred loss model under MFRS 139. ECL allowances represent credit losses that reflect an unbiased and probability-weighted amount which is determined by evaluating a range of possible outcomes, the time value of money and reasonable and supportable information about past events, current conditions and forecasts of future economic conditions. Forward-looking information (FLI) is explicitly incorporated into the estimation of ECL allowances, which involves significant judgment. In contrast, the incurred loss model incorporated a single best estimate, the time value of money and information about past events and current conditions.

ECL allowances are measured at amounts equal to either (i) 12-month ECL or (ii) lifetime ECL for those financial instruments which have experienced a significant increase in credit risk (SICR) since initial recognition or when there is objective evidence of impairment.

The calculation of ECL allowances is based on the expected value of three probability-weighted scenarios to measure the expected cash shortfalls, discounted at the effective interest rate. A cash shortfall is the difference between the contractual cash flows that are due and the cash flows that the Bank expect to receive. The key inputs in the measurement of ECL allowances are as follows:

- The probability of default (PD) is an estimate of the likelihood of default over a given time horizon;
- The loss given default (LGD) is an estimate of the loss arising in the case where a default occurs at a given time; and
- The exposure at default (EAD) is an estimate of the exposure at a future default date.

Lifetime ECL is the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month ECL is the portion of lifetime expected credit losses that represent the expected credit losses that result from default events on the financial instrument that are possible within the 12 months after the reporting date. Due to the inclusion of relative credit deterioration criteria and consideration of FLI, lifetime credit losses are generally recognized earlier under MFRS 9.

In applying the impairment requirements under MFRS 9, the Bank must maintain, in aggregate, loss allowance for non-credit-impaired exposures (Stage 1 and 2) and regulatory reserves of no less than 1% of total credit exposures, net of loss allowance for credit-impaired exposures. Credit exposures exclude (i) exposures to and exposures with an explicit guarantee from the Government of Malaysia; and (ii) exposures to the Bank, a licensed bank, a licensed investment bank, a licensed Islamic bank and a prescribed development financial institution.

911666	D

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES AND CHANGES (CONTINUED)

Stage migration and SICR

As a result of the requirements above, financial instruments subject to ECL allowances are categorized into three stages.

<u>Stage 1</u> is comprised of all non-impaired financial instruments which have not experienced a SICR since initial recognition. The Bank recognizes 12 months of ECL for stage 1 financial instruments. In assessing whether credit risk has increased significantly, the Bank compares the risk of a default occurring on the financial instrument as at the reporting date, with the risk of a default occurring on the financial instrument as at the date of its initial recognition.

<u>Stage 2</u> is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Bank recognizes lifetime ECL for stage 2 financial instruments. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, then the Bank reverts to recognizing 12 months of ECL as the financial instrument has migrated back to stage 1.

The Bank determines whether a financial instrument has experienced a SICR since its initial recognition on an individual financial instrument basis. Changes in the required ECL allowance, including the impact of financial instruments migrating between stage 1 and stage 2, are recorded in provision for credit losses in the statement of income. Significant judgment is also required in the application of SICR.

<u>Stage 3</u> financial instruments are those that the Bank has classified as impaired. The Bank recognizes lifetime ECL for all stage 3 financial instruments. The Bank classifies a financial instrument as impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial instrument have occurred after its initial recognition. Evidence of impairment includes indications that the borrower is experiencing significant financial difficulties, or a default or delinquency has occurred. Under MFRS 9, all financial instruments on which repayment of principal or payment of interest is contractually past due for more than 90 days are automatically considered impaired.

A financial instrument is no longer considered impaired when all past due amounts, including interest, have been recovered, and it is determined that the principal and interest are fully collectable in accordance with the original contractual terms or revised market terms of the financial instrument with all criteria for the impaired classification having been remedied.

Financial instruments are written off, either partially or in full, against the related allowance for credit losses when the Bank judges that there is no realistic prospect of future recovery in respect of those amounts. Any recoveries of amounts previously written off are credited to the provision for credit losses.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018 (CONTINUED)

5 ESTIMATES

The preparation of condensed interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgements made by management in applying the Bank's accounting policies and the key sources of estimation and uncertainty were the same as those that were applied to the audited financial statements for the year ended 31 December 2017 except for the measurement of expected credit loss allowance as required under MFRS 9.

Measurement of the expected credit loss allowance

The measurement of the expected credit loss allowance for financial assets measured at amortised cost and FVOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses).

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the relative probability weightings and forward-looking macroeconomic factors for the computation of ECL

6 AUDITOR'S REPORT ON PRECEDING FINANCIAL STATEMENT

The auditors' report on the financial statements for the financial year ended 31 December 2017 was not subject to any qualification.

7 SEASONAL OR CYCLICAL FACTORS

The business operations of the Bank have not been affected by any material seasonal or cyclical factors.

8 UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE AND INCIDENCE

There were no unusual items affecting assets, liabilities, equity, net income or cash flow of the Bank for the third financial quarter ended 30 September 2018.

9 CHANGES IN ESTIMATES

There were no material changes in estimates of amounts in prior financial year that have a material effect on the financial results and position of the Bank for the third financial quarter ended 30 September 2018.

Company No.		
911666	D	

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018 (CONTINUED)

10 ISSUE OF SHARES AND DEBENTURES

There were no new shares issued during the third financial quarter ended 30 September 2018.

11 DIVIDENDS PAID

No dividends were declared or paid during the third financial quarter ended 30 September 2018.

12 SEGMENT INFORMATION

There is no segmental information as the Bank only has one reportable segment, which is its banking operation in Malaysia.

13 SUBSEQUENT EVENTS

There were no material events subsequent to the statement of financial position date that require disclosure or adjustment.

14 REVIEW OF PERFORMANCE

For the third financial quarter ended 30 September 2018, the Bank recorded a profit of RM1,063,000 compared to loss of RM714,000 in the previous comparative period. The profit is attributable to higher net interest income of RM434,000 and lower operating expenses which was lower by RM1,375,000 due to lower establishments costs namely depreciation and amortisation charges.

Deposits from customers decreased by RM 2.66 million from 31 December 2017 of RM 120.62 million to RM 117.98 million as at end of 30 September 2018, due to lower balances in demand and saving deposits. Loans and advances were higher by RM 5.15 million from the 31 December 2017 position mainly due to higher utilisation of credit facilities by borrowers. Shareholders fund as at end of 30 September 2018 stood at RM 321.34 million.

15 BUSINESS PROSPECTS

The Bank is optimistic on its business prospects as there are ample opportunities to provide financing and banking services to both the Malaysian domestic business enterprises and Indian based corporates and business entities operating in Malaysia. Further, the growing bi-lateral trade relationship between India and Malaysia also offers good growth opportunities for the Bank.

The Bank is regularly reviewing its business strategies to suit the changing business environment and catering to the needs of the varied business requirement with prudent risk taking to ensure sustainability of growth going forward.

The loans and advances and trade finance activities are expected to increase further at a moderate pace and this growth is expected to contribute positively towards higher operating income.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPT 2018 (CONTINUED)

- 19 LOANS, ADVANCES AND FINANCING (CONTINUED)
 - (x) Reconciliation of allowances under MFRS 139 to MFRS 9

For the Bank's business portfolio, the individually assessed allowances for impaired instruments recognized under MFRS 139 have generally been replaced by stage 3 allowances under MFRS 9, while the collective allowances for non-impaired financial instruments have generally been replaced by either stage 1 or stage 2 allowances under MFRS 9.

The following table reconciles the closing allowance for credit losses in accordance with MFRS 139 as at December 31, 2017 to the opening ECL allowance determined in accordance with MFRS 9 as at January 1, 2018:

	MFRS 139 (as at 31 Dec 2017)		Remeasure -ment	MFRS 9 (as at 1 Jan 2018)				
	Individual Allowanc e RM'000	Collective Allowance RM'000	Total RM'000	of ECL allowance RM'000	Stage 1 RM'000	Stage 2 RM'000	Stage 3 RM'000	Total RM'000
