**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020.**

1 CORPORATE INFORMATION

India International Bank (Malaysia) Berhad (“the Bank”) commenced commercial banking business on 11 July 2012. The principal activities of the Bank are banking and related financial services.

The address of the registered office and principal place of operation of the Bank is at 15, Jalan Raja Chulan, Bangunan Yee Seng, 50200 Kuala Lumpur.

The Bank is a company limited by shares and is a licensed Bank, incorporated and domiciled in Malaysia.

The financial statements were authorised for issue by the Board of Directors in accordance with their resolution on 29 May 2020.

2 SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements. These accounting policies have been consistently applied to all the years presented, unless otherwise stated.

A BASIS OF PREPARATION

The financial statements of the Bank have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards (“IFRS”) and the requirements of the Companies Act, 2016 in Malaysia.

The financial statements have been prepared under the historical cost convention unless otherwise indicated in this summary of the significant accounting policies.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Bank’s accounting policies. Although these estimates and judgement are based on the Directors’ best knowledge of current events and actions, actual results may differ. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A BASIS OF PREPARATION (CONTINUED)

Standards, amendments to published standards and interpretations that are effective

The Bank has applied the following standards and amendments for the first time for the financial year beginning on 1 January 2019:

- MFRS 16 'Leases'
- Amendments to MFRS 9 'Prepayment Features with Negative Compensation'
- IC Interpretation 23 'Uncertainty over Income Tax Treatments'
- Annual Improvements to MFRSs 2015 – 2017 Cycle

The Bank has adopted MFRS 16 for the first time in the 2019 financial statements, which resulted in changes in accounting policies. The detailed impacts of change in accounting policies are set out in Note 2(A)(a).

Standards, amendments to published standards and interpretations that are applicable to the Company but not yet effective

The Company will apply these standards, amendments to published standards from:

- (i) Financial year beginning on/after 1 January 2020
 - Amendments to MFRS 101 and MFRS 108 clarify the definition of materiality and use a consistent definition throughout MFRSs and the Conceptual Framework for Financial Reporting

The definition of 'material' has been revised as "Information is material if omitting, misstating, or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make based on those financial statements, which provide financial information about a specific reporting entity."

The amendments also:

- Clarify that an entity assesses materiality in the context of the financial statements as a whole.
- Explain the concept of obscuring information in the new definition. Information is obscured if it has the effect similar as omitting or misstating of that information. For example, material transaction is scattered throughout the financial statements, dissimilar items are inappropriately aggregated, or material information is hidden by immaterial information.
- Clarify the meaning of 'primary users of general purpose financial statements' to whom those financial statements are directed, by defining them as 'existing and potential investors, lenders and other creditors' that must rely on general purpose financial statements for much of the financial information they need.

The amendments shall be applied prospectively.

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A BASIS OF PREPARATION (CONTINUED)

(a) Change in accounting policies – adoption of MFRS 16 “Leases”

The Bank has adopted MFRS 16 for the first time in the 2019 Financial Statements, which resulted in changes in accounting policies. The Bank has elected to use the simplified retrospective transition method and to apply several practical expedients as provided in MFRS 16.

Under the simplified retrospective transition method, the 2018 comparative information was not restated and the cumulative effects of initial application of MFRS 16 where the Bank is a lessee were recognised as an adjustment to the opening balance of retained earnings as at 1 January 2019. The comparative information continued to be reported under the previous accounting policies governed under MFRS 117 “Leases” and IC Interpretation 4 “Determining whether an arrangement contains a lease”.

The impact of adoption of MFRS 16 to the Bank is summarised as below.

The Bank as a lessee

(i) Leases classified as operating leases under MFRS 117

On adoption of MFRS 16, the Bank recognised lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of MFRS 117. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 January 2019.

The associated right-of-use (“ROU”) assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position as at 31 December 2018.

Summarised below are the effects upon adoption of MFRS 16 as at 1 January 2019.

	Audited as at 31 December 2019 (RM'000)	Effect of adoption of MFRS 16 (RM'000)	Adjusted 1 January 2020 (RM'000)
Assets			
Deferred taxation	171	-	171
Right-of-use assets	2,749	-	2,749
Liabilities			
Other liabilities	1,141	-	1,141
Lease liabilities	2,538	-	2,538

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A BASIS OF PREPARATION (CONTINUED)

(a) Change in accounting policies – adoption of MFRS 16 “Leases” (continued)

(i) Leases classified as operating leases under MFRS 117 (continued)

The reconciliation of the operating lease commitments disclosed under MFRS 117 to MFRS 16 is as follows:

	RM'000
Operating lease commitments as at 31 December 2018	669
Discounted using the incremental borrowing rate	661
Out-of-scope contracts	(41)
Option to extend the lease commitment	1,918
Lease liabilities recognised as at 1 January 2019	<u>2,538</u>
Of which:	
Current lease liabilities	897
Non-current lease liabilities	<u>1,641</u>
Total	<u>2,538</u>

The recognised right-of-use assets relate to the following type of assets:

	RM'000
Properties	2,267
Data center	482
Total	<u>2,749</u>

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B FINANCIAL ASSETS

(a) Classification

Beginning 1 January 2019, the Bank classifies its financial assets in the following manner

- Those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- Those to be measured at amortised costs.

(b) Recognition and de-recognition

Regular way purchases and sales of financial assets are recognised on settlement date, the date on which the Bank settles the commitment to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Bank has transferred substantially all the risks and rewards of ownership.

(c) Measurement

At initial recognition, the Bank measures financial assets at their fair value plus, in the case of a financial asset not at fair value through profit or loss, transactions costs that are directly attributable to the acquisition of the financial assets. Transaction costs of financial assets carried at fair value through profit or loss are expenses in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Bank's business model for managing the asset and the cash flow characteristics of the asset. The Bank reclassifies debt investments when and only when its business model for managing those assets changes.

There are three measurement categories into which the Bank classifies its debt instruments:

(i) Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ("SPPI") are measured at amortised cost. Interest income from these financial assets is included in profit and loss using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented as a separate line item in the Statement of Comprehensive Income.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B FINANCIAL ASSETS (CONTINUED)

(c) Measurement (continued)

Debt instruments (continued)

(ii) Fair value through other comprehensive income ("FVOCI")

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent SPPI, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in profit and loss. Interest income from these financial assets is included in "interest income" using the effective interest rate method. Foreign exchange gains and losses are presented in other income and impairment expenses are presented as a separate line item in the Statement of Comprehensive Income.

(iii) Fair value through profit or loss ("FVTPL")

Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. The Bank may also irrevocably designate financial assets at FVTPL if doing so significantly reduces or eliminates a mismatch created by assets and liabilities being measured on different bases. Fair value changes are recognised in profit or loss in the period which it arises.

Business model

The business model reflects how the Bank manages the assets in order to generate cash flows. That is, whether the Bank's objectives are solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these are applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified under the "other" business model and measured at FVTPL. Factors considered by the Bank in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. For example, the Bank's business model for the mortgage loan book is to hold to collect contractual cash flows. Another example is the liquidity portfolio of assets, which is held by the Bank as part of liquidity management and is generally classified within the hold to collect and sell business model. Securities held for trading are held principally for the purpose of selling in the near term or are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These securities are classified under the "other" business model and measured at FVTPL.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B FINANCIAL ASSETS (CONTINUED)

(c) Measurement (continued)

Solely payments of principal and interest ("SPPI")

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the "SPPI test"). In making this assessment, the Bank considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. profit includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

Equity instruments

The Bank subsequently measures all equity investments at fair value. Where the Bank's management has elected to present fair value gains and losses on equity investments in FVOCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Bank's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in "net gains and losses on financial instruments" in the Statement of Comprehensive Income.

(d) Subsequent measurement – Impairment

Impairment for debt instruments and financial guarantee contracts

The Bank assesses on a forward-looking basis the expected credit loss ("ECL") associated with its debt instruments carried at amortised cost and at FVOCI and financial guarantee contracts issued. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B FINANCIAL ASSETS (CONTINUED)

(d) Subsequent measurement – Impairment (continued)

ECL represents a probability-weighted estimate of the difference between present value of cash flows according to contract and present value of cash flows the Bank expects to receive, over the remaining life of the financial instrument. For financial guarantee contracts, the ECL is the difference between the expected payments to reimburse the holder of the guaranteed debt instrument less any amounts that the Bank expects to receive from the holder, the debtor or any other party.

The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

General 3-stage approach

At each reporting date, the Bank measures ECL through loss allowance at an amount equal to 12 months ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition. For all other financial instruments, a loss allowance at an amount equal to lifetime ECL is required. Note 33 sets out the measurement details of ECL. The Bank applies 3-stage approach on debt instruments measured at amortised cost, except for those that are under simplified approach, as explained below.

Simplified approach

The Bank applies MFRS 9 simplified approach to measure ECL which uses a lifetime ECL for other assets.

Significant increase in credit risk

The Bank considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Bank compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportable forward-looking information.

FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B FINANCIAL ASSETS (CONTINUED)

(d) Subsequent measurement – Impairment (continued)

Significant increase in credit risk (continued)

The following indicators are incorporated:

- Significant changes in internal price indicators of credit risk as a result of changes in credit risk.
- Changes in the rates or terms of an existing instrument if it is assessed as a newly originated instrument (example more stringent covenants, increased amounts of collateral or guarantees, or higher income coverage) because of changes in the credit risk
- Significant changes in external market indicators of credit risk for a financial instrument.
- Actual or expected significant change in the financial instrument's external credit rating.
- Actual or expected internal credit rating downgrade for the borrower or decrease in behavioural scoring used to assess credit risk internally.
- Existing or forecasted adverse changes in business, financial or economic conditions that are expected to cause a significant change in the borrower's ability to meet its debt obligations (example increase in interest rates, significant increase in unemployment rates).
- An actual or expected significant change in the operating performance of the borrower (example declining revenues or margins, increasing operating risks, working capital deficiencies, decreasing asset quality, increased balance sheet leverage, liquidity, management problems or changes in the scope of business or organisational structure).
- Significant increases in credit risk on other financial instruments of the same borrower (example CCRIS rating).
- Actual or expected significant adverse change in the regulatory, economic, or technological environment of the borrower that may result in a significant change in the borrower's ability to meet its debt obligations (example decreasing sales).
- Actual or expected significant changes in the value of the collateral supporting the obligation.

(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B FINANCIAL ASSETS (CONTINUED)

(d) Subsequent measurement – Impairment (continued)

Significant increase in credit risk (continued)

- Actual or expected significant changes in the quality of the third-party guarantee provided.
- Actual or expected significant changes such as reductions in financial support from a parent entity/other affiliate, or in the quality of credit enhancement.
- Expected changes in the loan documentation (example an expected breach of contract that may lead to covenant waivers or amendments, interest payment holidays, interest rate step-ups, requiring additional collateral or guarantees) or other changes to the contractual framework of the instrument.
- Significant changes in the expected behaviour of the borrower, including changes in the payment status of borrowers in the group of similar instruments.
- Payment delays and past due information.

Definition of default and credit-impaired financial assets

The Bank defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of indicators, which include amongst others, the following criteria:

- Failure to make contractual payment more than 90 days or 3 months of when they fall due.
- Bankruptcy or winding up petition.

The Bank first assesses whether objective evidence of impairment exists for financial assets which are individually significant. If the Bank determines that objective evidence of impairment exists, i.e. credit impaired, for an individually assessed financial asset, a lifetime ECL will be recognised.

Financial assets which are individually significant but non-impaired and not individually significant are grouped on the basis of similar credit risk characteristics (such as credit quality, instrument type, credit risk ratings, credit utilisation, customer types and other relevant factors) for collective assessment.

(d) Subsequent measurement – Impairment (continued)

Write off policy

The Bank writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery.

Indicators that there is no reasonable expectation of recovery include

- ceasing enforcement activity; and
- where the Bank's recoveries method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

Modification of financing

The Bank sometime renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Bank assesses whether or not the new terms are substantially different to the original terms. The Bank does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the financing is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the financing.

If the terms are substantially different, the Bank derecognises the original financial asset and recognises a "new" asset at fair value and recalculates a new effective profit rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Bank also assessed whether the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in profit or loss as a gain or loss on derecognition.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Bank recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective profit rate (or credit-adjusted effective profit rate for purchased or originated credit-impaired financial assets).

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B FINANCIAL ASSETS (CONTINUED)

(d) Subsequent measurement – Impairment (continued)

De-recognition other than a modification

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either:

- (i) the Bank transfers substantially all the risks and rewards of ownership, or
- (ii) the Bank neither transfer nor retain substantially all the risks and rewards of ownership and the Bank has not retained control.

(e) Regulatory reserve requirements

Pursuant to BNM letter dated 1 November 2018, effective 1 January 2019, the Bank shall maintain, in aggregate, stage 1 and 2 provisions and regulatory reserve of no less than 1% of all credit exposures (on and off balance sheet that are subject to MFRS 9 impairment requirement, excluding exposures to and with an explicit guarantee from the Malaysian Government), net of Stage 3 provision.

C CASH AND CASH EQUIVALENTS

For the purpose of the statement of cash flows, cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. Cash and cash equivalents comprise cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of 1 month or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

D PLANT AND EQUIPMENT

Plant and equipment are initially stated at cost. Subsequent to initial recognition, all plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. The cost of an item of plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

All repairs and maintenance are recognised as expenses in profit or loss during the financial period in which they are incurred.

Plant and equipment are depreciated using the straight-line method to allocate costs to their residual values over their estimated useful lives, summarised as follows:

Office equipment and furniture & fittings	7 years
Motor vehicles	5 years
Computers	3 years
Office renovations	7 years

Residual values and useful lives of assets are reviewed and adjusted if appropriate, at the end of each reporting period.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Intangible assets are amortised on a straight-line basis over the estimated economic useful lives and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each reporting date.

Intangible assets of the Bank comprise computer software and are amortised over their finite useful lives estimated at 3 to 7 years on a straight-line basis.

Cost associated with maintaining computer software are recognised as an expense as incurred.

F IMPAIRMENT OF NON-FINANCIAL ASSETS

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

The impairment loss is charged to profit or loss unless it reverses a previous revaluation, in which case it is charged to the revaluation surplus. Any subsequent increase in recoverable amount is recognised in the income statement unless it reverses an impairment loss on a revalued asset, in which case it is taken to revaluation surplus reserve.

G PROVISIONS

Provisions are recognised when the Bank has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the management's best estimate of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost expense.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H FINANCIAL LIABILITIES

Financial liabilities are measured at amortised cost, except for trading liabilities and liabilities designated at fair value, which are held at fair value through profit or loss. Financial liabilities are initially recognised at fair value plus transaction costs for all financial liabilities not carried at fair value through profit or loss. Financial liabilities at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the income statement. Financial liabilities are de-recognised when extinguished.

The Bank's other financial liabilities include deposits from customers, lease liabilities and other liabilities.

Other financial liabilities are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

I ACCOUNTING BY LEASE

From 1 January 2019, leases are recognised as right-of-use ('ROU') asset and a corresponding liability at the date on which the leased asset is available for use by the Bank (i.e. the commencement date).

Contracts may contain both lease and non-lease components. The Bank allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Lease term

In determining the lease term, the Bank considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not to be terminated).

The Bank reassess the lease term upon the occurrence of a significant event or change in circumstances that is within the control of the Bank and affects whether the Bank is reasonably certain to exercise an option not previously included in the determination of lease term, or not to exercise an option previously included in the determination of lease term. A revision in lease term results in remeasurement of the lease liabilities. See accounting policy below on reassessment of lease liabilities.

ROU assets

ROU assets are initially measured at cost comprising the following:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentive received;
- Any initial direct costs; and
- Decommissioning or restoration costs.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I ACCOUNTING BY LEASE (CONTINUED)

ROU assets (continued)

ROU assets that are not investment properties are subsequently measured at cost, less accumulated depreciation and impairment loss (if any). The ROU assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Bank is reasonably certain to exercise a purchase option, the ROU asset is depreciated over the underlying asset's useful life. In addition, the ROU assets are adjusted for certain remeasurement of the lease liabilities.

Lease liabilities

Lease liabilities are initially measured at the present value of the lease payments that are not paid at that date. The lease payments include the following:

- Fixed payments (including in-substance fixed payments), less any lease incentive receivable;
- Variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable by the Bank under residual value guarantees;
- The exercise price of a purchase and extension options if the group is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the lessee's incremental borrowing is used. This is the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the ROU in a similar economic environment with similar term, security and conditions.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on sales are recognised in profit or loss in the period in which the condition that triggers those payments occurs.

The Bank presents the lease liabilities as a separate line item in the statement of financial position. Interest expense on the lease liability is presented within the interest expenses in Statement of Comprehensive Income.

Reassessment of lease liabilities

The Bank is also exposed to potential future increases in variable lease payments that depend on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is remeasured and adjusted against the ROU assets.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I ACCOUNTING BY LEASE (CONTINUED)

Short-term leases and leases of low value assets

Short-term leases are leases with a lease term of 12 months or less. Payments associated with short-term leases and all leases of low-value assets are recognised on a straight-line bases as an expense in Statement of Comprehensive Income.

J FINANCIAL GUARANTEE CONTRACTS AND FINANCING COMMITMENTS

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure financing, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The expected credit losses model under MFRS 9
- The premium received on initial recognition less income recognised in accordance with the principles of MFRS 15.

Financing commitments provided by the Bank are measured as the amount of the loss allowance. The Bank has not provided any commitment to provide financing/advances at a below-market interest rate, or one that can be settled net in cash or by delivering or issuing another financial instrument. The loss allowance is recognized as expected credit losses for loan/financing commitment and financial guarantee.

K RECOGNITION OF INTEREST INCOME, EXPENSES AND FEE AND OTHER INCOME

(i) Interest income and interest expense

Interest income and expense for all interest-bearing financial instruments are recognised within "interest income" and "interest expense" in the Statement of Comprehensive Income using the effective interest method. The effective interest method is a way of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period.

The effective interest method applies the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instruments to the net carrying amount of the financial assets or liabilities.

For the credit impaired financial assets, the effective Interest rate is applied to the net carrying amount of the financial assets (after deduction of the expected credit losses).

(Incorporated in Malaysia)

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**K RECOGNITION OF INTEREST INCOME, EXPENSES AND FEE AND OTHER INCOME
(CONTINUED)**

(ii) Fee and other income

Fees and commissions are recognised as income when all condition precedents are fulfilled.

Guarantee fees are recognised as income based on performance obligations satisfied.

Brokerage fees are recognised as income based on inception of such transactions.

Dividends are recognised when the right to receive payment is established.

L EMPLOYEE BENEFITS

(i) Short-term benefits

Wages, salaries, paid annual leave and sick leave, bonuses, and non-monetary benefits are recognised as an expense in the period in which the associated services are rendered by employees of the Bank.

(ii) Defined contribution plans

The Bank's contributions to defined contribution plans are charged to the income statement in the financial year to which they relate. Once the contributions have been paid, the Bank has no further payment obligations.

M OPERATING LEASE PAYMENT

Leases where the Bank does not assume substantially all the risk and rewards of the ownership are classified as operating leases, and the leased assets are not recognised on the Bank's financial statements.

Payments made under operating leases are recognised in the profit or loss on a straight-line basis over the lease period.

The Bank has applied this policy until 31 December 2018.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N FOREIGN CURRENCIES

(i) Functional and presentation currency

Items included in the financial statements of the Bank are measured using the currency of the primary economic environment in which the Bank operates (the "functional currency"). These financial statements are presented in Ringgit Malaysia ("RM"), which is the Bank's functional and presentation currency. All financial information is presented in RM and has been rounded to the nearest thousand, unless otherwise stated.

(ii) Foreign currency transactions

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the income statement within 'other income'. All other foreign exchange gains and losses are recognised in the income statement within the same line item as the underlying that gives rise to the translation difference.

The principal exchange rates for every unit of foreign currency ruling at reporting date used are as follows:

	<u>30 June 2020</u>	<u>31 December 2019</u>
Indian Rupees	0.0567	0.0574
Singapore Dollars	3.0718	3.0387
United States Dollars	4.2800	4.0925
Hong Kong Dollars	0.5522	0.5257
British Pounds	5.2655	5.3722
Euro	4.8099	4.5852

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O CURRENT AND DEFERRED TAX

Tax expense for the period comprises current and deferred income tax. The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Bank operates and generates taxable income.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of transaction affects neither accounting nor taxable profit and loss. Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred tax asset is realised or deferred tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences or unused tax losses can be utilised.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. This liability is measured using the single best estimate of the most likely outcome. Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

P DERIVATIVES

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each reporting period.

Q OTHER ASSETS

Other assets generally arise from transactions outside the usual operating activities of the Bank.

After recognition, other assets are subsequently measured at amortised cost using the effective interest method, less provision for impairment. See accounting policy Note 2 (F) on impairment of financial assets.

INDIA INTERNATIONAL BANK (MALAYSIA) BERHAD
(Incorporated in Malaysia)

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)**

3 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires management to exercise their judgement in the process of applying the Bank's accounting policies. Although these estimates and judgements are based on the management's best knowledge of current events and actions, actual results may differ from these estimates.

In determining the carrying amounts of some assets and liabilities, the Bank makes assumptions of the effects of uncertain future events on those assets and liabilities at the date of the statement of financial position. The Bank estimates and assumptions are based on historical experiences and expectations of future events and are reviewed periodically. Revision to accounting estimates are recognised in the period in which the estimates is revised and in any future periods affected.

The measurement of the expected credit loss allowance for financial assets measured at amortised cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (example the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 33, which also sets out key sensitivities of the ECL to changes in these elements.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

27 CAPITAL MANAGEMENT

The objective of the Bank's capital management policy is to maintain an adequate level of capital to support business growth strategies under an acceptable risk framework, and to meet its regulatory requirements and market expectations.

The Bank's capital management process involves a careful analysis of the capital requirements to support business growth. The Bank regularly assesses its capital adequacy under various scenarios on a forward looking perspective for the purpose of capital planning and management to ensure that the capital is at the level suitable for the prevailing business conditions.

The Bank's capital requirements and capital adequacy ratios, in accordance with BNM's revised Risk-Weighted Capital Adequacy Framework ("RWCAF"): Standardised Approach for Credit Risk and Market Risk and Basic Indicator Approach for Operational Risk are disclosed in Note 32.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE FINANCIAL HALF YEAR ENDED 30 JUNE 2020 (CONTINUED)

28 CAPITAL ADEQUACY

Bank Negara Malaysia (“BNM”) issued revised guidelines on the capital adequacy framework on 13 October 2015, of which took effect beginning 1 January 2016. The revised guidelines set out the regulatory capital requirements concerning capital adequacy ratios and components of eligible regulatory capital in compliance with Basel III.

The risk-weighted assets of the Bank are computed in accordance with the Capital Adequacy Framework (“Basel II - Risk-Weighted Assets”). The Standardised Approach is applied for Credit and Market Risk, whilst the Basic Indicator Approach is applied for Operational Risk (“Basel II”).

The comparative capital adequacy ratios as at 31 December 2019 were based on BNM's Risk-Weighted Capital Adequacy Framework (“RWCAF”) which has regulatory capital requirements concerning capital adequacy ratios and components of eligible regulatory capital in compliance.

The capital adequacy ratio of the Bank are as follows:

	<u>30.06.2020</u>	<u>31.12.2019</u>
	RM'000	RM'000
<u>Common Equity Tier 1 Capital</u>		
Paid-up share capital	330,000	330,000
Accumulated losses	(5,645)	(5,645)
Total Common Equity Tier 1 Capital	<u>324,355</u>	<u>324,355</u>
<u>Tier 2 capital</u>		
Stage 1 and 2 ECL	268	683
Regulatory reserves	1,714	2,043
Total Tier 2 capital	<u>1,982</u>	<u>2,726</u>
Total capital base	<u><u>326,337</u></u>	<u><u>327,081</u></u>
Capital ratios		
Common Equity Tier 1 Capital Ratio	206.255%	179.929%
Total Capital Ratio	<u><u>207.516%</u></u>	<u><u>181.443%</u></u>

The Bank does not have any innovative, non-innovative, complex or hybrid capital instruments. The breakdown of risk-weighted assets by major category is as follows:

	<u>30.06.2020</u>	<u>31.12.2019</u>
	RM'000	RM'000
Credit risk	127,752	147,251
Market risk	275	3,846
Operational risk	29,232	29,170
Total risk-weighted assets	<u><u>157,259</u></u>	<u><u>180,267</u></u>
